Authorising the Board of Directors to decide on the acquisition of the Company's own shares

The Board of Directors proposes that the General Meeting authorise the Board of Directors to decide on the acquisition of the Company's own shares in one or more tranches as follows:

The maximum number of own shares that may be purchased is 580 000 shares, corresponding to approximately seven (7) % of the aggregate number of shares in the company on the date of the notice to annual general meeting. Based on the authorisation, own shares may be purchased using only the unrestricted shareholders' equity. Own shares may be acquired at a price formed on the date of purchase in public trading or at a price formed otherwise on the market. The acquisition of own shares may be made otherwise than in proportion to the share ownership of the shareholders (directed acquisition). Shares may be acquired e.g. for the purpose of the Company's share-based incentive systems. The Board of Directors proposes that this authorisation includes the right to decide on how own shares are acquired and on all other matters regarding the acquisition of shares.

The authorisation replaces the authorisation granted to the Board of Directors by the Annual General Meeting of 4 April 2017 regarding acquisition of own shares. The authorisation is proposed to be valid until the following Annual General Meeting, however not longer than until 30 June 2019.

Authorising the Board of Directors to decide on the issuance of shares and the transfer of special rights entitling to shares

The Board of Directors proposes that the Annual General Meeting authorise the Board of Directors to decide on the issuance of shares and on the transfer of special rights entitling to shares referred to in chapter 10,

section 1 of the Limited Liability Companies Act, in one or more tranches, either against or without consideration. The number of shares to be issued, including shares transferred under special rights, may not exceed 780 000 shares. The Board of Directors may decide to issue either new shares or to transfer any treasury shares held by the Company.

The authorisation entitles the Board of Directors to decide on all terms of the share issue and transfer of special rights entitling to shares, including the right to deviate from the shareholders' pre-emptive right. This authorisation is used e.g. for the Company's share-based incentive systems or for other purposes as decided by the Board of Directors. The authorisation is proposed to include the Board of Directors' right to decide on all other matters related to the issuance of new shares and the transfer of special rights entitling to shares.

The authorisation replaces the authorisation granted to the Board of Directors by the Annual General Meeting of 4 April 2017 regarding the right to decide on the share issue and the transfer of special rights entitling to shares. The authorisation is proposed to be valid until the following Annual General Meeting, however not longer than until 30 June 2019.
